ABOUT ME

Passionate problem-solver with a knack for innovation and teamwork, ready to drive impact from day one.

PROJECTS

INQUESTOR Website

Developed Inquestor, is a streamlined platform for online case registration, enabling users to manage cases easily while admins oversee agents and adding case category, ensuring efficiency and security in private investigations.
Technologies Used:Django (Backend), HTML, CSS, JavaScript (Frontend) .

VL STORES Website

Developed VL Stores, an e-commerce platform for online provision shopping, allowing the shop owner (admin) to manage inventory and users to browse and purchase essentials conveniently.
Technologies Used:Django (Backend), HTML, CSS, JavaScript (Frontend) .

ODIN PROJECT (Clone Website)

Developed a responsive clone of the Odin Project website, accurately replicating its layout and providing a visually appealing interface.
Technologies Used: HTML, CSS, Bootstrap.

HOMEHERO Website

Developed an efficient online platform for booking skilled professionals such as plumbers, electricians, and gardeners, simplifying service hiring for users.
Technologies Used: Python Django (Backend), HTML, CSS, JavaScript (Frontend), XAMPP for local server management.
